Install Assistant

Version	Ver.2.2.0
Uploaded date	2012/3/2 9:00
File size	20,879KB
Explanation	This content is no longer updated. We replaced the "Install Assistant" with the following new content. [Link] EpsonNet SetupManager --- This is the utility to put together the setting information of the printer driver and the installer of the driver as a package file. The driver is installed as the same settings on the different computer when executing this file. It is easy to install the printer driver on the several computers. **[Changes from Ver.2.1.0]** [Added support model] TM-C3400BK **[Support model]** TM-C610,TM-C3400,TM-C3400BK **[Support OS]** Windows 7 SP1 English Edition (32/64bit*) Home Basic, Home Premium, Professional, Ultimate, Enterprise (*: except for Home Basic)) Windows Vista SP2 English Edition (32/64bit) Home Basic, Home Premium, Business, Ultimate, Enterprise Windows XP SP2 English Edition (64bit) Professional Windows XP SP3 English Edition (32bit) Home, Professional Windows 2000 SP4 English Edition Professional Windows Server 2008 R2 SP1 English Edition Standard, Enterprise, Datacenter Windows Server 2008 SP2 English Edition (32/64bit) Standard, Enterprise, Datacenter Windows Server 2003 R2 SP2 English Edition (32/64bit) Standard, Enterprise, Datacenter
