| File size | 64Bit 23,885KB / 32Bit 21,108KB |
| Explanation | <p>1.Note</p> <ul style="list-style-type: none">• For overwrite installation, the current print setting information cannot be takeover to this version of printer driver. Therefore, to take over the information, perform the steps below: (1) Write the print setting information to a BSF file. (2) Start overwriting installation of this printer driver. (3) Import the BSF file created in Step 1. * Please be sure to provide the information above to the users.• The package (.exe file) includes the Printer Setting software Ver. 1.5.0.0. <p>2.Environment</p> <p>[Support OS]</p> <ul style="list-style-type: none">- Windows 11- Windows 10 (32/64 bit)- Windows 8.1 (32/64 bit)- Windows 8 (32/64 bit)- Windows Server 2022- Windows Server 2019- Windows Server 2016- Windows Server 2012R2- Windows Server 2012 <p>[Support interface]</p> <ul style="list-style-type: none">- USB2.0- Wired LAN <p>[Development environment]</p> <ul style="list-style-type: none">- Microsoft Visual Studio 2005 or later. <p>[Other requirements]</p> <ul style="list-style-type: none">- Administrator account is required. <p>3.Supported Products</p> <p>[Support Model]</p> <ul style="list-style-type: none">- TM-C7500G (Firmware Ver. WAI32700 or later) <p>4.Restrictions</p> <ul style="list-style-type: none">- If you upgrade the OS while connecting to a printer that is in the power-on state, the user settings are erased. Therefore, it is recommended to re-install the driver after the OS upgrade.- In response to the end of Microsoft support for OSes (Windows Vista, Windows 8, and Windows Server 2008 at present), we will end the support for the following OSes at the time of the driver cannot be installed.- When installing PrinterSetting by using its installer, uninstall the current version and then install the new version. |
